PRINCETON NURSERIES

Special Wholesale Price List No. 1

FALL 1958

Princeton, N. J. Telephone WA 4-1776

September 10, 1958

F O R E W O R D

For your convenience, this is an early, complete listing of stock available for Fall 1958.

In the near future, we will mail our regular, illustrated catalogue covering Fall 1958 and Spring 1959 showing ultimate heights, descriptions, hardiness ratings and adaptability.

In the winter and spring, at frequent intervals, we will mail lists similar to this, showing the stock on hand at that time. We think that keeping you posted as to varieties and sizes currently available will be of great value to you.

Following the ultimate height shown on each variety you will find a number covering the most northerly zone in which the particular variety is considered to be hardy. Please refer to our complete catalogue for descriptions, special information, etc.

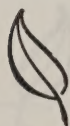

You are cordially invited to visit our nursery.

SEND US YOUR WANT LIST

11 to 13 ft., 2 to 2½ in.	18.00	15.00	12.00

SUMMERSHADE MAPLE

(Plant Patent #1748)

— "Summershade", 60'-75' (Zone 3)

The new rapid-growing, heat-resistant, upright Norway Maple, developed at Princeton Nurseries.

For over a decade we have been working with Norway Maples to produce a variety especially adapted to adverse hot weather areas. This new Summershade Maple is the most outstanding Norway Maple we have ever seen; the best of over 120,000 plants we have evaluated. The very dark green foliage is larger and more leathery than in other kinds and it resists windburn and insect injury. The tree grows much more rapidly, is a self-branching type, and quickly forms a shapely, upright head with the leader maintained to the top.

Its superior growth rate, form, and foliage will make money for you.

6 to 8 ft.	4.90	4.05	3.25
8 to 10 ft., 1 to 1¼ in.	6.75	5.50	4.50
9 to 11 ft., 1¼ to 1½ in.	10.00	8.00	6.50
10 to 12 ft., 1½ to 1¾ in.	12.50	10.25	8.15

— pseudoplatanus, 60' (Zone 5)			
Planetree Maple			
6 to 8 ft.	3.75	3.00	2.50
8 to 10 ft., 1 to 1¼ in.	5.25	4.40	3.50
8 to 10 ft., 1¼ to 1½ in.	6.75	5.50	4.50
9 to 11 ft., 1½ to 1¾ in.	8.50	7.00	5.50
10 to 12 ft., 1¾ to 2 in.	10.50	8.80	7.00
10 to 12 ft., 2 to 2¼ in.	12.00	10.00	8.00

— rubrum, 50'-75' (Zone 3)

SHADEMASTER LOCUST

PRINCETON UPRIGHT THORNLESS HONEYLOCUST

(Zone 4)

Plant Patent No. 1515

For many years there has been a growing need for new and better shade trees. We have been striving to produce a Thornless Honeylocust with all the characteristics listed below and to eliminate all of the faults common in ordinary Honeylocusts. We have painstakingly examined over 20,000 individual trees in this program. Our long effort has resulted in the development of what we and our visitors proclaim to be the **FINEST THORNLESS HONEYLOCUST AVAILABLE.**

We were assisted in our final selection by a large panel of expert professional arborists. (The Princeton Upright Thornless Honeylocust was for many years the famous Number 13 in our research program.)

Its outstanding characteristics are:

- | | |
|--|--|
| 1—Straight, strong trunk | 9—Holds foliage late in the fall |
| 2—Ascending branches | 10—Deep roots |
| 3—Heavy, dark green foliage | 11—Does not heave sidewalks |
| 4—Requires no staking | 12—Grass will grow right up to the trunk |
| 5—Rapid growth | 13—No leaf raking in the fall |
| 6—Transplants easily | 14—Forms unbelievably symmetrical tops—a radical departure from other Honeylocusts |
| 7—Freedom from diseases and insect pests | |
| 8—Drought resistance | |

Notes

SPECIAL OFFER

ASSORTED SHRUBS AND GROUND COVERS

Our selection includes all desirable varieties for landscape plantings.

Many of our customers have asked for assorted plants where the varieties do not have to be specified. We are, therefore, offering three groups of plants this season. The varieties used will naturally be made up of items that we have in good supply at the time.

	100 or more	1000 or more
GROUP A—Shrubs, 2 yr. Average 2 ft. or more, including many good ornamental varieties of Cornus, Deutzia, Spirea, Lonicera and others40	.35
GROUP B—Shrubs, 3 yr. Average 3 ft or more, including many good ornamental varieties as above45	.40
GROUP C—Ground Covers, 2 yr. Average 15 in. or more, including many excellent low-growing, woody ground covers35	.30

We may also from time to time have special offers of assorted SHADE TREES, SMALL EVERGREENS, or other items. Consult us first and take advantage of the savings involved.
